

1 Purely Reseller-Based

- ✓ We do not accept direct registrations from end customers.
- ✓ We do not compete with our partner resellers.

2 Neutrality, our seal

- ✓ Non-intrusive approach: your customers are yours.
- ✓ Fully customizable white-labelled technology: from Control Panel to ICANN mandated notifications to end users.

3 All extensions in 1 stop

- ✓ Connect to more than 500 extensions, including all launch phases.
- ✓ One gateway to all gTLDs and most relevant ccTLDs.

4 Pay per use

- ✓ Competitive prices.
- ✓ No sign-up fee, monthly fee or minimum purchase required.
- ✓ Fully refundable deposits.

5 Agent Mode for Accredited Registrars

- ✓ A single connection for all TLDs using your own accreditation.
- ✓ Become a full-fledged registrar for a fraction of its cost.

6 Customized Flagship Store for TLD operators

- ✓ Fully customizable web-based domain name registration and management tool.
- ✓ Offer one TLD, some TLDs or all TLDs (500+); all up to you.
- ✓ See, for example, register.radio and start.sport

GatewayNG

NextGen Registrar Platform

WHY GatewayNG

NextGen Platform

- ✓ Full featured state of the art registrar platform built upon 20 years of experience.
- ✓ Rebuilt in 2018.

API and Web-based Control Panel: Your choice

- ✓ Suitable for all registrars and resellers.
- ✓ Easy to manage even for newcomers in the DNS industry.

24/7 Technical Support

- ✓ 24/7 monitoring of all technical components.
- ✓ Phone hotline support for partner resellers.
- ✓ Technical support via an issue tracking system.

Fully Fledged

- 1 Integrated billing and invoicing.
- 2 Sophisticated user and privilege system.
- 3 Multi-level sub-accounts for resellers and customers.
- 4 Highly customizable tariff system supporting temporary promotions.
- 5 Flexible launch phase configuration.
- 6 Comprehensive operations history.

White Labelled

- ✓ The focus is on your name, your brand.

ICANN Compliant

- ✓ Fully compliant with ICANN Service Level Agreements (SLAs).
